<p><b>OceanLED Colours XFM HD – Gen 2</b></p> <p>Colours by OceanLED are the first high-powered color change underwater LED lights for boats that allow boat owners to choose the color of their lights from an unlimited color pallet, and now they're even brighter!</p> <p>Colours utilize the very latest 4-channel RGBW (Red/Green/Blue/White) High Definition LEDs. Controlled via DMX-512 through the vessels onboard systems, or wirelessly via third party devices such as an iPad, iPhone or Android, Colours allows you to preprogram more than 40 static and dynamic color scenes to set the mood, enhance an onboard event, strobe to attract fish, or even change color with the time of day.</p> <p>XFM models, or Xchangeable Flush Mounts, are just that – they're exchangeable without hauling should servicing ever be needed. Their exceptionally low profile head offers virtually unlimited hull mounting options, including retrofitting into most existing underwater lighting hole cut-outs, yielding immediate benefits of no startup power surge, low heat, minimal maintenance, and improved light output.</p> <p>Suitable for all hull types up to and over 65' (20m) using 2-6 lights with spacing of 3-5' (1-1.5m) – for metal hulls, add the Delrin Isolation Sleeve accessory. Deutsch plug-and-play quick connectors make this light a quick fit. Maintenance is easy; just wipe away marine growth from its scratch resistant Tritonium™ glass lens.</p> <ul style="list-style-type: none"> <li>○ – 11400 Lumens</li> <li>● <ul style="list-style-type: none"> <li>○ – 7000 Fixture Lumens</li> <li>○ – Xchangeable from Inside the Hull</li> <li>○ – Equal to 250w HID/Metal Halide</li> <li>○ – 4" (100mm) Hole</li> <li>○ – 110-240V AC</li> <li>○ – 40,000+ Hour Life</li> <li>○ – Aluminium Bronze AB2</li> <li>○ – Plug &amp; Play</li> <li>○ – Factory Sealed Unit</li> <li>○ – Tritonium™ Lens Resists Sea Growth</li> </ul> </li> </ul> 	£2,247.60	4	5%	£8,540.88

<b>OceanLED DMX Touch Panel Controller (Option 1)</b>	£602.40	1	5%	£572.28
---	---------	---	----	---------

DMX Touch Panel Controller lets you control the color of your Pro Series HD Colours underwater lights at the touch of a button. This touch sensitive intelligent control keypad enables the user to easily program up to 8 lighting scenes with Up to 24 dynamic or static scenes (8 first visualized by a led).

Full RGBW control through a touch sensitive display. Programmable through the included USB cable and control software. Compatible with OceanLED Pro Series HD.

For wifi control, see the DMX Wifi Touch Panel Controller.

## OceanLED DMX Wi-Fi Touch Panel Controller (Option 2)

£1,257.60

1

5%

£1,194.72

DMX Wifi Touch Panel Controller lets you control the color of your Pro Series HD Colours underwater lights at the touch of a button. This touch sensitive intelligent control keypad enables the user to easily program more than 40 lighting effects with a choice of up to 16 million colors.

The Colours application includes a strobe feature which can be used to attract fish or flash a warning using the panic mode feature.

The wifi controller can be easily programmed to create individual colour scenes, which can then be selected at the touch of a button. With more than 40 dynamic or static scenes and live setting of the intensity and colour of a scene, any boat owner can turn their Pro Series Colours HD underwater lights into an integrated part of your boating experience. With onboard wifi, Colours can also be controlled via mobile devices such as an iPhone, iPad, or Android.
