- Control Options: Lumi-Switch, or standard On/Off switch
- All SUPRA lights store your last switch function into memory for ease of use
- Protections: Over voltage/current, reverse polarity, and thermal rollback protection
- Life expectancy: 50,000+ hours
- Warranty: Three-year THX/TIX Warranty

SUPRA Series provide '2-lights-in-1' by combining our most popular colors in a single high-power fixture. Lumishore is the only manufacture to offer dual-color lights without sacrificing brightness meaning; both colors run at full power. Available in Surface Mount (SMX) with a 90° beam angle, and Thru-Hull standard fit (THX) and interchangeable* models (TIX) with the widest available beam angle of 110°. Easily controlled by a simple on/off switch or Lumi-Switch* for full-feature control; switch between colors, cycle, fade, adjust brightness*, and strobe in two-speeds*. Your last function is stored in memory, turn your lights back on and they return to their last setting.
